#### Welcome to iwillnotlose net

From the evolutionary gene pool of life, I WILL NOT LOSE is not just a statement, it is a state of mind that must be embodied before ones most complicated achievements can be realized. Inspired by two individuals, I WILL NOT LOSE is recognition that people are indeed faced with obstacles, and with our backing these individuals will discard all doubts that losing will be an option in their minds, as well as the perception of others No persons' stumbling blocks are greater or any less than the next. We do not fear failure, rather, failure is now nonexistent, ergo, no matter what life presents I WILL NOT LOSE 1

### Morning

I've received the three caps that you have sent to me and your letter requesting a partnership with New Era. I have taken digital images and forwarded to key people in our organization to ask their opinion on the logo and the concept to see if it will fit anywhere within our business structure. When I receive the appropriate feedback I will follow up with both of you. Thank you for your time.
